SCHOTT to extend its sales cooperation with Hellma Optics

Hellma Optics to assist with selling smaller quantities of cut blanks in Europe

The international technology group SCHOTT has reorganized its sales of cut blanks made of optical glass. Effective October 1, [Hellma Optik GmbH Jena](#) will take on distribution of small volumes of cut blanks from SCHOTT Advanced Optics in Europe.

Thanks to this more active collaboration with [Hellma Optics](#), SCHOTT Advanced Optics will be able to offer their customers shorter response and delivery times and thus even more efficient service. SCHOTT will continue to sell glasses in higher homogeneity classes and with better inclusion classes directly, however.

Information:

Please contact [Hellma Optics](#) to order cut blanks in smaller volumes and standard quality for Europe:

- with diameter and edge length < 100 mm
- quantities less than 100 pieces
