Flexi Shelf Pro - the complete shelving system

Flexi Shelf Pro helps create an attractive, logical display and simplifies stocking and inventory management.

Many advantages with Flexi Shelf Pro:

- ★ A complete system with accessories such as front stops, price marking strips, dividers and pin-packs.
- ★ Wire shelves mounted with adjustable consoles provide the desired angle, enabling gravity feed that ensures a constantly replenished cold or freezer display front.
- ★ The shelving system can be combined with its predecessor, Flexi Shelf.

Flexi Shelf Pro is stocked from the rear, which guarantees first in first out. In the cold room, the need for stocking is noticed immediately and it is easier to maintain the display front.

An article code list at the rear of the shelves simplifies replenishing. The shelving system has only two uprights which are mounted at the front. This makes it easier to clean and rearrange the shelves.
