SCHOTT appoints PYRANOVA® stockists in Scotland

Ravensby Glass Co Ltd in Dundee has been appointed to stock, process and distribute the new clear PYRANOVA® fire resistant glass from SCHOTT throughout Scotland. The new PYRANOVA product offers up to 60 minutes insulation and integrity (EI60) in large panel sizes for timber or steel framing systems.

Backed up by extensive test evidence approved under Certifire to the European standard EN1634-1, PYRANOVA is suitable for use in a full range of specialist fire solutions in interior and exterior applications from simple door glazing through cladding, screens and partitioning up to butt jointed floor to ceiling applications. PYRANOVA is available in a wide range of thicknesses from 11mm up to 27mm, as well as double glazed units to meet Building Regulations for thermal insulation.

Jack Cutler, Sales and Marketing Manager for SCHOTT UK says 'Ravensby Glass are ideal partners as they have a sound knowledge of the glass industry including the legislation and specification of fire glass, processing capability, and a strong commitment to invest in plant, machinery and stock.'

Press Information

With the expertise of new partners, SCHOTT PYRANOVA can be processed quickly, accurately and delivered in short lead times.

For many years SCHOTT has been the market leader for integrity only glass with PYRAN[®] S, offering exciting applications such as butt-joint and structural glazed systems to take advantage of the products unique borosilicate composition to provide large uninterrupted areas of glazing. PYRANOVA[®] enhances our range of fire resistant glasses, again fully supported by SCHOTT's technical and commercial expertise.

For more information please contact Ravensby Glass on 01382 480842 or email lisacunningham@ravensbyglass.co.uk.
