

The background of the entire page is an abstract, artistic rendering of curved glass bands. These bands are layered and curved, creating a sense of depth and movement. The lighting is soft and diffused, highlighting the smooth, reflective surfaces of the glass. The overall color palette is a range of light blues and whites, giving it a clean, modern, and sophisticated appearance.

SCHOTT
glass made of ideas

Facts & Figures

Fiscal Year
2018/2019

SCHOTT is a leading international technology group in the areas of specialty glass, glass-ceramics and related high-tech materials. With over 130 years of experience, the company is an innovative partner to many industries, including the home appliance, pharma, electronics, optics, life sciences, automotive and aviation industries.

SCHOTT AG is solely owned by the Carl Zeiss Foundation. As a foundation company, SCHOTT assumes special responsibility for its employees, society and the environment.

*** Share of global sales by region**

NORTH AMERICA
Sales of 506 million euro
2,050 employees

HOME APPLIANCES

Glass-ceramic cooktop panels, unique and innovative glass solutions for kitchen and living as well as door and frame solutions for commercial cooling systems.

PHARMA

Special glass tubing, primary packaging made of glass and polymer as well as analytical laboratory services.

ELECTRONICS

Hermetically-sealed housings and components for applications in electronics, sensors and semiconductors as well as security industries. Ultra-thin glasses for displays.

OPTICS/ASTRONOMY

Optical glasses and special materials as well as high precision components for sophisticated optical applications. Glass-ceramics for astronomical telescopes.

ASIA AND SOUTH PACIFIC

Sales of 554 million euro
3,150 employees

MIDDLE EAST AND AFRICA
Sales of 32 million euro

INDUSTRY TECHNOLOGY

Special glass tubing for plant construction like e.g. photobioreactors. Hermetic feedthroughs for LNG ships and terminals.

AUTOMOTIVE

Hermetic sealings for sensitive electronics and sensor technology. Lighting solutions based on LEDs and fiber optics technology.

AVIATION

Special glass solutions for instruments and security applications for safe piloting. Innovative lighting solutions for improved comfort in the cabin.

LIFE SCIENCES

LED based medical and microscopy light solutions, radiation shielding glass as well as microarray solutions.
