

Advanced Leadership Program

Objectives

Connecting our leaders and boosting leadership quality based on the SCHOTT values are the main objectives of this program.

Participants reflect on their role and impact as a leader. They generate ideas for strategy implementation and exchange experiences on how to enhance team performance.

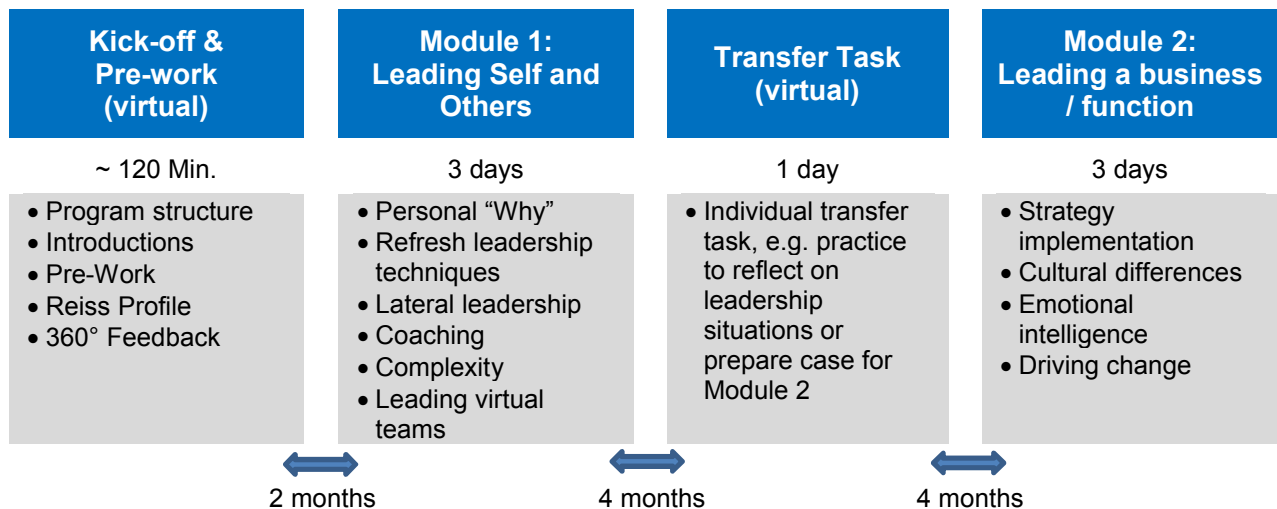

Participants identify areas for personal growth and increase and foster their intercultural awareness. In addition, they will learn how to deal with change and complex situations effectively.

The Leadership Advanced Program consists of several modules. In between each module, participants work on individual transfer assignments. The modules are conducted as classroom seminars and virtual meetings.

Target Group

Experienced managers (Company Grade II + III) and selected managers in preparation for senior management positions. Participation is subject to nomination of participants by Business Unit and Corporate Function Heads.

Program Structure & Content

Timeframe

Total of about 8 days
