## Facts & Figures

Fiscal Year  
2016/2017

SCHOTT is a leading international technology group in the areas of specialty glass and glass-ceramics. With more than 130 years of outstanding development, materials and technology expertise we offer a broad portfolio of high-quality products and intelligent solutions that contribute to our customers' success.

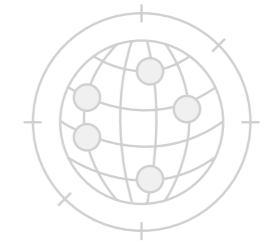

SCHOTT is an innovative enabler for many industries, including the home appliance, pharma, electronics, optics, life sciences, automotive and aviation industries. We strive to play an important part of everyone's life. The parent company, SCHOTT AG, is solely owned by the Carl Zeiss Foundation.

**2.05** Global sales  
billion euro

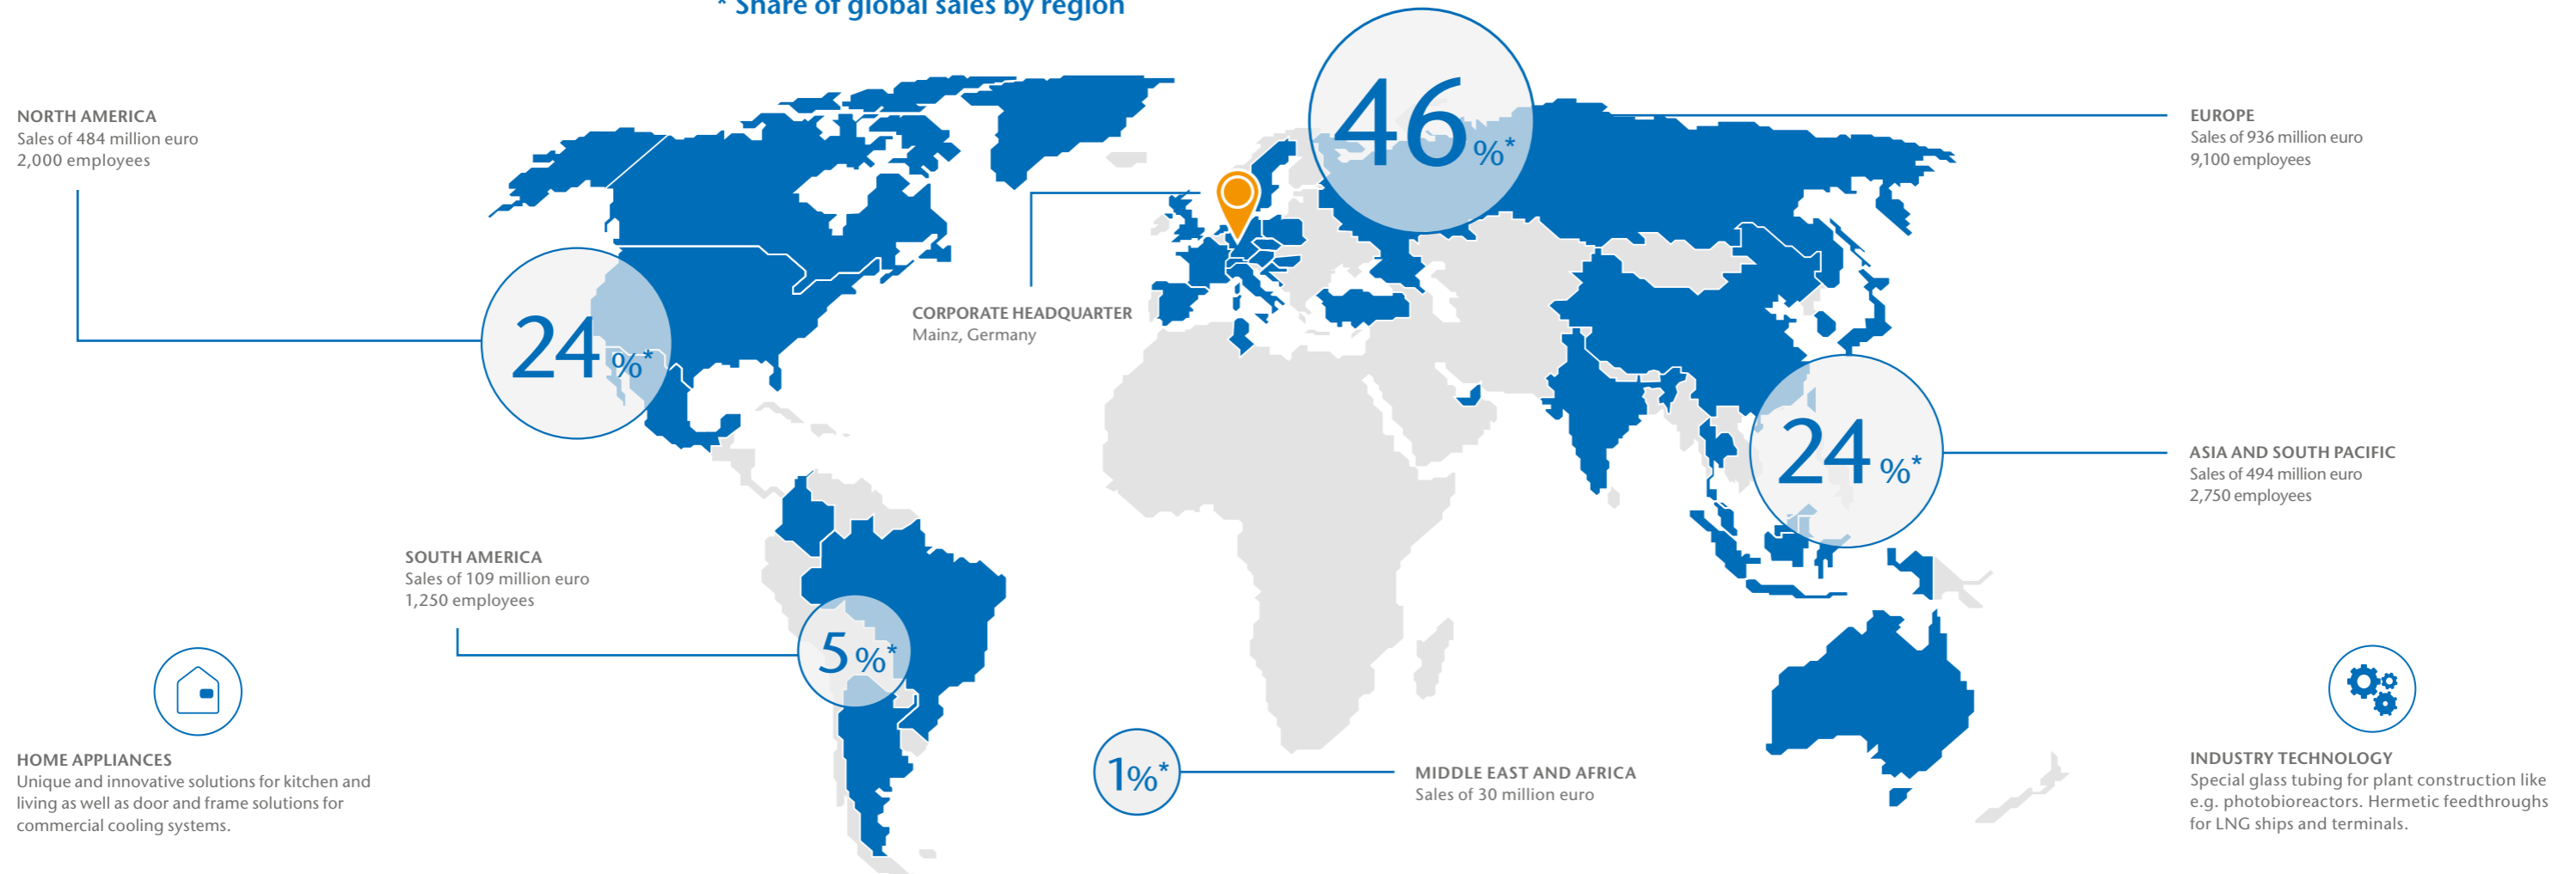

**15,100** employees  
worldwide

Production sites  
and sales offices

in  
**34**  
countries

\* Share of global sales by region

**NORTH AMERICA**  
Sales of 484 million euro  
2,000 employees

**EUROPE**  
Sales of 936 million euro  
9,100 employees

**ASIA AND SOUTH PACIFIC**  
Sales of 494 million euro  
2,750 employees

**SOUTH AMERICA**  
Sales of 109 million euro  
1,250 employees

**MIDDLE EAST AND AFRICA**  
Sales of 30 million euro

**HOME APPLIANCES**  
Unique and innovative solutions for kitchen and living as well as door and frame solutions for commercial cooling systems.

**INDUSTRY TECHNOLOGY**  
Special glass tubing for plant construction like e.g. photobioreactors. Hermetic feedthroughs for LNG ships and terminals.

**PHARMA**  
Special glass tubing, primary packaging made of glass and polymer as well as analytical laboratory services.

**ELECTRONICS**  
Hermetically-sealed housings and components for applications in electronics, sensors and semi-conductors as well as security industries.

**OPTICS**  
Optical glasses and special materials as well as high precision components for sophisticated optical applications.

**AUTOMOTIVE**  
Hermetic sealings for sensitive electronics and sensor technology. Lighting solutions based on LEDs and fiber optics technology.

**AVIATION**  
Special glass solutions for instruments and security applications for safe piloting. Innovative lighting solutions for improved comfort in the cabin.

**LIFE SCIENCES**  
LED based medical and microscopy light solutions, radiation shielding glass as well as microarray solutions.
