

Easy opening, smooth sliding

SCHOTT Termofrost® SVD: sliding door system for semi-vertical refrigerated cabinets

High visibility of stored food

Product description

SCHOTT Termofrost® SVD is a trendsetting sliding door system with a large display for high visibility of stored food. It combines the benefits of an attractive design whilst maintaining great functionality.

Light and transparent doors allow a perfect showcasing of chilled goods that stimulate impulse purchases. The system is available with curved and flat doors – both of which incorporate double glazing for a perfect energy performance of your refrigerated cabinet.

The highlight of this system is the extremely easy opening. Precise ball-bearing rollers inside the door frame at the bottom rail ensure smooth door movements. The ergonomic handle in a stainless steel look enable users intuitive operation and keeping your customers happy.

Take advantage of the benefits

- Impressively large display area for perfect visibility
- Extremely smooth opening
- Double glazing supports energy saving
- Two door types: curved and flat glass doors
- Easy cleaning of doors and frame
- Simple retrofitting on all common refrigerated cabinets

Simple smooth opening
