

Transform your freezer cabinet into a glass showcase

SCHOTT Termofrost® Skyline: For freezer cabinets

Extended glass doors close flush with the upper case edge

Product description

This product line of glass doors combines stylish design and perfect functionality for the presentation of frozen food. Extended glass doors close flush with the upper edge of a freezer cabinet. With the cabinet top disappearing behind SCHOTT Termofrost® Skyline, an increased transparent display area provides an optimized view to food.

Freezer aisles benefit from an all-glass look as the extended glass doors increase the appeal of freezer cabinets with a spacious glass facade.

Several adaptation options allow individual customization.

Two versions are available:

- SCHOTT Termofrost® Skyline Eco: energy free doors
- SCHOTT Termofrost® Skyline Plus: heated doors

Benefit from

- Elegant all-glass look
- Extended glass doors
- Contemporary glass facade
- Increased transparent display area

Door in light grey
