

CERAN HIGHTRANS® eco

The first eco-friendly glass-ceramic cooktop in the world

More than just a brand

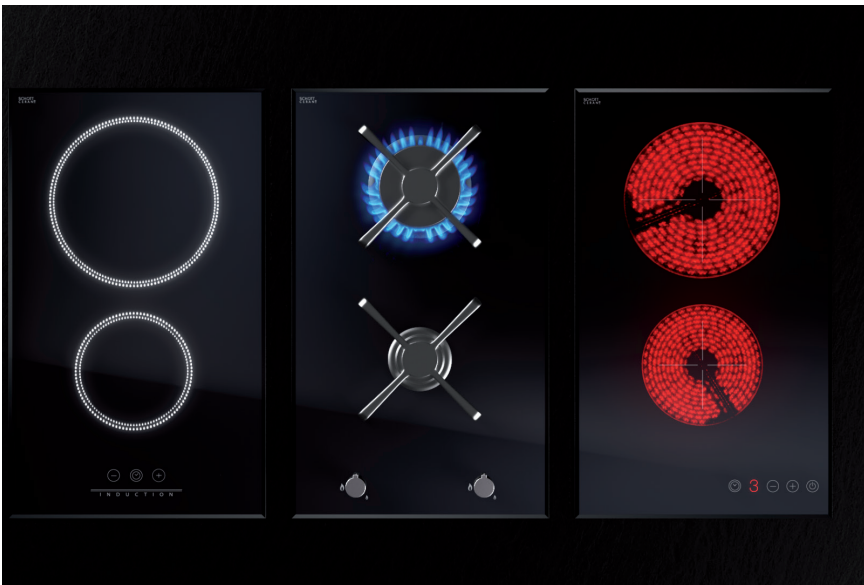

Our glass-ceramic is known for its outstanding chemical and physical properties. SCHOTT CERAN® is extremely durable and incredibly tough. Thanks to our quality, we even exceed industry standards. SCHOTT CERAN® is simply unmatched when it comes to its thermal and mechanical characteristics. But where does this quality come from? Quite simply, it is the combination of the manufacturing process, our unique processing technology and the original formula used to make SCHOTT CERAN®.

SCHOTT CERAN® – simply unmatched!

Key benefits of CERAN HIGHTRANS® eco

- The right solution for all heating technologies: CERAN® for induction, radiant and gas
- Transmission of full spectral color range and multi color visibility for LED light and display solutions
- Extremely temperature-stable
- High impact resistance
- Life-long beauty and easy to clean
- Patented environmentally friendly production process without toxic heavy metal additives arsenic and antimony
- Broad range of lead-free decoration colors and CERAN® Flash Colors engineered by SCHOTT

SCHOTT CERAN® is the right solution for all three heating technologies (induction, gas and radiant).

CERAN HIGHTRANS® eco

The first eco-friendly glass-ceramic cooktop in the world

Sense your green mindset with eco-efficient products

As a leader in technology and innovation, SCHOTT simply boasts quality “Made in Germany”. With high-tech procedures and state-of-the-art, resource-friendly production processes, the company is constantly setting the latest standards. Furthermore, SCHOTT has refined its patented melting process to produce CERAN® without the use of the toxic heavy metals arsenic or antimony. For this ecologically conscious manufacturing method and its insistence on creating environmentally friendly products, SCHOTT has received several awards.

CERTIFIED BY TÜV RHEINLAND

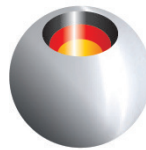

SCHOTT CERAN® is the only TÜV-certified glass-ceramic cooktop panel

- Tested for harmful substances
- Suitable for food contact
- Periodic inspection
