

CERAN ARCTICFIRE®

White glass-ceramic gives kitchens a classy touch.

Four different whites

SCHOTT offers four different color impressions of white glass-ceramic cooktop panels: CERAN ARCTICFIRE® classic, CERAN ARCTICFIRE® frost, CERAN ARCTICFIRE® ice and CERAN ARCTICFIRE® snowy.

CERAN ARCTICFIRE® classic, CERAN ARCTICFIRE® frost, CERAN ARCTICFIRE® ice, CERAN ARCTICFIRE® snowy (from top to bottom)

Key benefits of CERAN ARCTICFIRE®

CERAN ARCTICFIRE® snowy and CERAN ARCTICFIRE® classic are white design variants:

- Suitable for induction, radiant and gas heating elements
- Visibility of red residual heating indicators

CERAN ARCTICFIRE® ice and CERAN ARCTICFIRE® frost are white light products:

- Suitable for induction, (radiant and gas limited)
- Different light blocking coatings on the underside
- Visibility of red 7-segment displays

Broad range of topside decoration colors for CERAN ARCTICFIRE®

Please consider, that all colors give a non-binding color impression. Please contact your responsible sales contact for more information, detailed specifications and color samples.

CERAN ARCTICFIRE®

White glass-ceramic gives kitchens a classy touch.

Discover your distinctive style

The upper surface of all four white cooktop panels can be printed with designs using the popular decorative colors white, grey, brown, and black. Whether it's the high-contrast black-and-white versions, white-on-white or softer color shades, this set of four white cooktop panels with decorative color accents clearly offers a wide range of design possibilities.

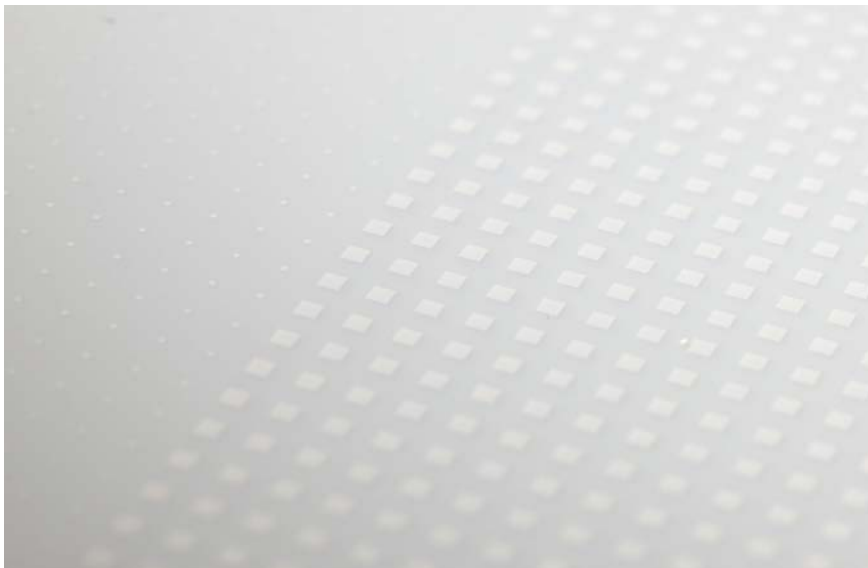

White kitchen design trend

CERAN ARCTICFIRE®

supports current design trends
